1. INTRODUCTION

This Re-Opening Plan (ROP) document is part of the Business Recovery Plan (BRP) for Action Commitment Transformation Program (ACT) – ACT Ridgeway 221 - 1024 RIDGEWAY AVE COQUITLAM, BC, V3J 1S5). This ROP is informed by BC's Restart Plan: Next Steps to Move BC Through the Pandemic, BC Covid-19 Go Forward Management Strategy, ISIP Covid-19 Phased Operational Recovery – Guidance and Principles and the website information from WorkSafe BC's Covid-19 and Returning to Safe Operation – Phase 3, Covid-19 Guidance and Orders of the Provincial Health Officer, BC Centre for Disease Control. This ROP is a result of active engagement of frontline workers, health and safety committee members and supervisors in a process of assessing the risks at the Centre, developing and implementing the protocols as well as continuously evaluating and reviewing the protocols and procedures.

The ROP provides guidance for the ISIP clients and staff to prevent the transmission of Covid-19 and maintain a healthy and safe environment at the Centre. This ROP identifies key infection prevention and control practices to implement, as well as actions to take if a client or staff member develops symptoms of Covid-19.

2. UNDERSTANDING OF COVID-19

The virus that causes Covid-19 spreads in several ways. It can spread in droplets when a person coughs or sneezes. It can also spread if a person touches a contaminated surface and then touches his/her eyes or nose.

The risk of person-to-person transmission increases the closer people come to each other and the more time they spend near each other.

The risk of surface transmission increases when many people contact the same surface and when those contacts happen over short periods of time.

For up-to-date information on Covid-19, please visit the **BC Centre for Disease Control (BCCDC)** website, <u>www.bccdc.ca</u>.

3. RE-OPENING FOR LIMITED IN-PERSON SERVICES

As of October 5, 2020 ACT Ridgeway will re-open to provide limited but safe in-person services at its Service Centre located at 221 - 1024 RIDGEWAY AVE COQUITLAM, BC. Operation hours are from 9:00 am – 5:00pm, Monday, Wednesday and Friday.

Created: August 30, 2020 Revised: September 20, 2020

Priority will be given to clients experiencing technology barriers or who are more effectively served through in-person services. All in-person services are done by appointment only. In addition, the staff team will maintain and continue to enhance and deliver virtual service to other clients.

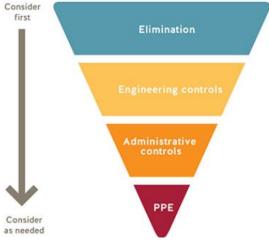

4. PROTOCOLS TO ENSURE HEALTH AND SAFE ENVIRONMENT

This ROP applies the recommended 4 levels of protection from the WorkSafe BC resource guide on *In-Person Counselling: Protocols for Returning to Operation* into its protocol development.

First Level Protection (Elimination): ACT Ridgeway will keep clients and staff at a safe physical distance from one another. Limit the number of clients and staff in the Centre at any one time, and implement protocols to keep staff at least 2 meters from client.

Measures in Place:

- ACT Ridgeway maximum 4 staff and 5 clients in the Centre at any time
- In-person service are done by appointment ONLY
- Appointments are staggered to ensure that physical distancing can be safeguarded
- Entrance door is locked at all times and open for the scheduled clients only;
- Clients receive a copy of Covid-19 Health and Safety Guidelines when the appointment is confirmed by phone or email
- Clients are advised to come alone for the appointment to minimize the impact on the occupancy limit. If clients must bring their family to attend the appointment, a maximum of 4 family members can attend. Appointment for family must be provided in the classroom that can hold a maximum of 5 people
- A 24-hour check-in call will be made to the scheduled client to ensure their health status (any Covid-19 symptoms) before the appointment
- A further entry check will be done with the client prior to entry for the scheduled appointment
- Contact logs are required for clients and staff
- An Informed Consent for In-person Service Form is required from each client
- ACT Ridgeway has re-assigned the work space for Case Manager to meet clients individually in classroom and interview room
- Classroom tables will be aligned together to ensure a physical distancing of 2 meters between the case manager and clients during the individual counseling session
- Social and physical contacts, such as handshake is not allowed
- Signs on observing physical distancing are displayed at the Centre entrance, interview room, staff

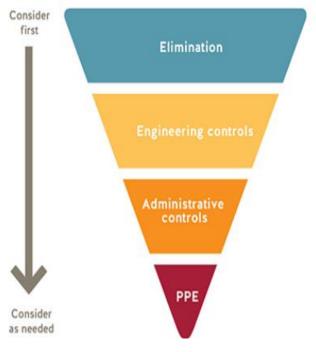

Second Level Protection (Engineering Controls): ACT Ridgeway will install barriers to separate clients from staff where physical distancing may not be able to be

maintained.

Measures in Place:

- ACT Ridgeway has installed a plexiglass at the Centre separate the client from staff in the interview room
- The plexiglass meets the standards as set by the National Collaborating Centre for Environmental Health;
- The plexiglass each measures 42" width x 24" LXH
- The plexiglass is cleaned/disinfected once every day by the professional janitorial service contractor after office hour and immediately by the client support worker or case manager with the alcohol-based disinfecting spray and paper towel when the plexiglass is touched and/or sneezed/coughed at.

Third Level Protection (Administrative Controls): ACT Ridgeway establishes rules and guidelines for Centre Cleanliness and Hygiene, Use of Equipment, Use of Pantry Room and Washrooms, Staying Home When Sick as well as staff communication, orientation and training.

Measures in Place:

Centre Cleanliness and Hygiene

- Cleaning and disinfecting of the Centre is done twice by a professional janitorial service contractor
 - Mid-day: 12pm 2pm
 - o Evening: after hour
- Garbage containers are emptied twice daily by a professional janitorial service contractor
- Sensor hand sanitizer dispensers are installed at the Service Centre
- Each staff is provided with washable and disposable masks, face shield, disposable gloves, sani-wipes, alcohol-based hand rub (at least 70% alcohol) for their own use
- Staff are trained and reminded regularly about the importance of diligent hand hygiene (handwashing with water and soap for at least 20 seconds)
- Signage and posters on hand washing and respiratory etiquette are displayed in the Service Centre, classrooms, interview rooms, reception area, staff offices and the pantry room

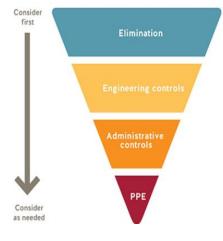

Use of Equipment

- Photocopier, fax machine and printer in the Service Centre are covered with plastic wrap and will be sanitized by staff after use and the wrap will be replaced daily
- Photocopier is confined to the staff access is sanitized after each use
- Each staff works with their own desktop/laptop, stationery, headset (no sharing)
- Pens are provided for client to use and keep (no communal pen)
- Water cooler is shut off. Bottled waters will be available for staff and clients

Use of Kitchen Appliances and Washroom

- Occupancy limit for washroom: 1 person at a time share with other tenants and patrons in the building
- Hand soap and paper towels are provided in every washroom
- Pantry room is confined to staff use only
- Staff's meal break is staggered
- Detergent, disinfecting wipes and paper towels are available in pantry room
- Staff should clean and disinfect microwave, water-tap handle after each use with the disinfecting liquid
- Shared pantry equipment and utensils will not be available to minimize contamination and cleaning

Created: August 30, 2020 Revised: September 20, 2020

Staying Home When Sick

- 24-hour and entry check-ins will be in place to ensure the client's health status for appointments
- Staff are required to stay home when sick with or without Covid-19 symptoms
- Staff are required to avoid unnecessary travel and notify immediate supervisor and regional manager of travel plans, both business and leisure.

Staff Communication and Training

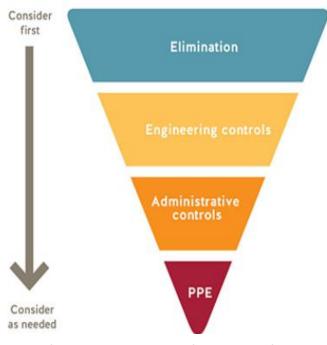

- Coordinator will conduct daily group check-ins (9:00 am and 4:30 pm) with staff on the Covid-19 operation, their feelings/responses, experiences, challenges or needs. In addition, individual checkins will be done to address individual situation and needs;
- Program Director and/or Regional Manager deliver on-going weekly training for staff to ensure updated training is provided for staff on the new development of the Covid-19 Health and Safety Guidelines and Protocols.

Fourth Level Protection (Personal Protective Equipment - PPE): ACT Ridgeway will provide non-medical masks to staff and its related training and guidelines.

Measures in Place:

- Each staff is provided with three washable nonmedical masks (and disposable masks as needed on site). Staff are mandated to wear mask at site;
- Staff dealing with clients' documents are mandated to wear disposable gloves
- Staff assigned as greeter are required to wear face shield
- Each staff is provided with a copy of the instruction poster from WorkSafe BC on how to put on and take off a mask safely
- Staff will be trained how to use a mask and gloves safely
- Clients will be provided with a disposable mask with a copy of the instruction poster from WorkSafe BC prior to their appointment

5. ORGANIZATIONAL PRACTICES

Staff Engagement: ACT Ridgeway has developed this ROP according to the *WorkSafe BC and Public Health Authorities* guidelines to ensure that staff understand the measures taken to reduce the risks. The staff team was involved in the planning process.

Staff Communication & Training: ACT Ridgeway will have two group check-in sessions with the staff on site as well as working from home. In addition, there will be individual check-in to ensure the staff are in healthy and safe status. Weekly training will be provided to staff update them with the current information of Covid-19 and the new guidelines/policies from the local Health Authorities, WorkSafe BC, BC Service Centre for Disease Control, Public Health Agency of Canada.

On-going Monitoring: As the pandemic evolves every day, ACT Ridgeway will closely observe and monitor the limited but safe opening. The Regional Manager, from the group and individual check-in with the frontline workers, would gather the operational information, challenges, needs, etc. Then, the findings will be reported to the Program Director, subject experts and senior management of the Agency for continuous quality improvement.

Continuous Quality Improvement: While the ACT Ridgeway team is committed to providing quality service for clients with access issues to the virtual service delivery, the team will observe up-to-date guidelines from the Health Authorities, WorkSafe BC, BC Service Centre for Disease Control, the Public Health Agency of Canada, etc. to strive for a healthy and safe environment for clients as well as for the dedicated staff members. Further training and guidelines will be developed and added to the existing ROP protocol. Staff are required to report breaches to Regional Manager immediately and file in the Incident Report following the established Agency protocol.

ACT Ridgeway Staff Schedule

Week 1 and 2

Aster	Ikran	Maryam
(Case Manager)	(Case Manager)	(Client Support Worker)

Week 3 and 4

Adel	Bafrin	Mehri	Yousra
(Coordinator)	(Case Manager)	(Case Manager)	(Case Manager)

Cleaning and Disinfecting Protocols

Cleaning and Disinfecting Definitions

Cleaning

- The physical removal of visible soiling (e.g. dust, soil, blood, mucus). Cleaning removes, rather than kills, viruses and bacteria. It is done with water, detergents, and steady friction from cleaning cloth.
- To disinfect a surface effectively, you must clean it first to remove surface dirt and debris. Any
 residue left on work surfaces and equipment may deactivate the disinfectant. Use soap or
 detergent as a cleaning agent.
- All visibly soiled surfaces should be cleaned before disinfection.
- Make sure to wash hands with plain soap and water after cleaning or use an alcohol-based hand sanitizer.

Disinfection

- The killing of viruses and bacteria. A disinfectant is only applied to objects; never on the human body.
- After cleaning, apply a disinfectant to the surface. You need to leave the disinfectant on for a specified contact time to neutralize any remaining organisms. Look for recommended contact times on product instructions.

Hard (Non-porous) Surfaces

Wear disposable gloves when cleaning and disinfecting surfaces. Gloves should be discarded
after each cleaning. If reusable gloves are used, those gloves should be dedicated for cleaning

Created: August 30, 2020 Revised: September 20, 2020

- and disinfection of surfaces for COVID-19 and should not be used for other purposes. Clean hands immediately after gloves are removed.
- If surfaces are dirty, they should be cleaned using a detergent or soap and water prior to disinfection.
- For disinfection, bleach solution should be used.

Soft (Porous) Surfaces

- For soft (porous) surfaces such as drapes, remove visible contamination if present and clean with appropriate cleaners indicated for use on these surfaces.
- After cleaning: Dispose cleaning items as appropriate in accordance with the manufacturer's instructions, if possible.

Areas	Commonly Touched Items (Light switches, door handles, buttons, garbage cans, etc.)
Frequency	 Cleaning and disinfecting is done once a day, by a janitorial contractor after 6:00 PM, on Monday, Wednesday and Friday
Who	A janitorial service contractor
How	Disinfected once per day (by janitorial contractor) by using industrial cleaning and disinfecting detergents and liquid
Additional Information	Client and staff are advised to use tissue paper/ paper towel to turn the door handle or elbow-push open the door without direct hand contact. Tissue paper and paper towel are available respectively at the common area, interview rooms, classrooms and staff offices and inside each washroom.

Areas	Common Used Surfaces (Tables, counters, desks, etc.)
Frequency	 Cleaning and disinfecting is done after use and after each client appointments Cleaning and disinfecting is also done once a day, by a janitorial contractor after 6:00 PM on Monday, Wednesday and Friday Janitorial contractor will clean and disinfect the interview room, common area, classroom and staff office on Monday, Wednesday and Friday between 12pm to 2pm
Who	 Staff during office hours (Monday, Wednesday and Friday 9:00am to 5:00pm) Janitorial service contractor Monday, Wednesday and Friday (after 6:00 PM)

	Disinfected (by janitorial contractor) by using industrial cleaning and disinfecting detergents and liquid
How	 After area is used, staff will wear disposable gloves before cleaning and disinfecting surfaces Staff will scrub and sanitize the area with alcohol based cleaning spray Wipe area dry with paper towel, and discard paper towel Gloves will be discarded after each cleaning
Additional Information	COVID-19 Health and Safety: Cleaning and Disinfecting

Augan	Any shared equipment and tools
Areas	(Photocopier, printer, microwave, chairs, etc.)
Frequency	 Cleaning and disinfecting is done after being used by staff Cleaning and disinfecting is also done once a day, by a janitorial
	contractor after 6:00 PM, Monday to Friday
Who	 Staff during office hours (Monday, Wednesday and Friday 9:00AM to 5:00 PM) Janitorial service contractor Monday, Wednesday and Friday
	(after 6:00 PM).
How	 Disinfected once per day (by janitorial contractor) by using industrial cleaning and disinfecting detergents and liquid 1) After area is used, staff will wear disposable gloves before cleaning and disinfecting surfaces 2) Staff will scrub and sanitize the area with alcohol based cleaning spray 3) Wipe area dry with paper towel, and discard paper towel 4) Gloves will be discarded after each cleaning
Additional Information	COVID-19 Health and Safety: Cleaning and Disinfecting

Areas	Possible Contaminated Surfaces
Aleas	(Plexiglas protective surfaces, windows, etc.)
	 Cleaning and disinfecting is done by staff, if suspected to be
Frequency	contaminated (ie. sneezed or coughed on);
riequency	 Cleaning and disinfecting is also done once a day, by a janitorial
	contractor after 6:00 PM, Monday, Wednesday and Friday.

Who	 Staff during office hours (Monday, Wednesday and Friday 9:00am to 5:00pm) Janitorial service contractor Monday, Wednesday and Friday (after 6:00pm).
How	 Staff will wear disposable gloves before cleaning and disinfecting surfaces Staff will scrub and sanitize the area with alcohol based cleaning spray Wipe area dry with paper towel, and discard paper towel Gloves will be discarded after each cleaning
Additional Information	COVID-19 Health and Safety: Cleaning and Disinfecting

How long does coronavirus survive on surfaces?

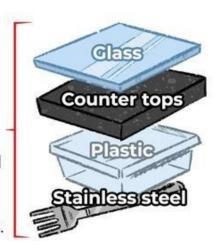

3 hours:

This is the amount of time we know that coronavirus can survive and remain infectious in **airborne droplets**, but we don't know if humans produce enough in a single cough to infect another person.

Up to 72 hours:

This is the amount of time coronavirus can stay active on **hard, shiny surfaces**. Think things like play equipment, door and public transport handles and your phone.

The virus does degrade over time, but you should avoid touching these surfaces in shared spaces, and if you can't do that, avoid touching your face afterward before thoroughly washing your hands.

Up to 24 hours:

This is the amount of time it took for researchers to find no more viable traces of the virus on cardboard. This is also a good guide for other **porous surfaces**.

Porous surfaces are much less likely to hold viable amounts of the virus.
